

FABP2 (Marker of Metastatic Potential in Colorectal Cancer) Antibody

Mouse Monoclonal Antibody [Clone CPTC-FABP2-3]

Catalog No	Format	Size
2169-MSM1-P0	Purified Ab with BSA and Azide	200ug/ml
2169-MSM1-P1	Purified Ab with BSA and Azide	200ug/ml
2169-MSM1-P1ABX	Purified Ab WITHOUT BSA and Azide	1.0mg/ml
Applications		Tested Dillution

Applications

Immunohistochemistry (IHC)

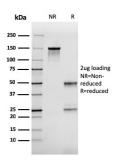

1-2ug/ml

Product Details

CPTC-FABP2-3	
FABP2	
Recombinant full length human FABP2 protein	
Mouse	
Monoclonal	
IgG1 / Kappa	
15.21kDa	
Cytoplasm	
Human	
MOLT-4 or HEK-293 cell lines. Esophagus, Skin. Keratinocytes; highly expressed in psoriatic skin. Colon.	

*Optimal dilution for a specific application should be determined.

Product Images for FABP2 (Marker of Metastatic Potential in Colorectal Cancer) Antibody

SDS-PAGE Analysis of Purified FABP2 Mouse Monoclonal Antibody (CPTC-FABP23). Confirmation of Purity and Integrity of Antibody.

Specificity & Comments

The intracellular fatty acid-binding proteins (FABPs) belong to a multigene family with nearly twenty identified members. FABPs are divided into at least three distinct types, namely the hepatic-, intestinal- and cardiac-type. They form 14-15kDa proteins and are thought to participate in the uptake, intracellular metabolism and/or transport of long-chain fatty acids. They may also be responsible in the modulation of cell growth and proliferation. Intestinal fatty acid-binding protein 2 gene contains four exons and is an abundant cytosolic protein in small intestine epithelial cells. This gene has a polymorphism at codon 54 that identified an alanine-encoding allele and a threonine-encoding allele. Thr-54 protein is associated with increased fat oxidation and insulin resistance.

Research Areas

Cardiovascular

Known Applications & Suggested Dilutions

Immunohistochemistry (Formalin-fixed) (1-2ug/ml for 30 min at RT),(Staining of formalin-fixed tissues requires heating tissue sections in 10mM Tris with 1mM EDTA, pH 9.0, for 45 min at 95°C followed by cooling at RT for 20 minutes) | Optimal dilution for a specific application should be determined.

Limitations and Warranty

This antibody is available for research use only and is not approved for use in diagnosis.

There are no warranties, expressed or implied, which extend beyond this description. Company is not liable for any personal injury or economic loss resulting from this product.

Supplied As

200ug/ml of Ab Purified from Bioreactor Concentrate by Protein A/G. Prepared in 10mM PBS with 0.05% BSA & 0.05% azide. Also available WITHOUT BSA & azide at 1.0mg/ml.

Storage and Stability

Antibody with azide - store at 2 to 8° C. Antibody without azide - store at -20 to -80°C. Antibody is stable for 24 months. Non-hazardous. No MSDS required.
