Recombinant CD162 (Selectin P Ligand) Antibody

Mouse Monoclonal Antibody [Clone rPSGL1/1601]

Catalog No	Format	Size
6404-MSM3-P0	Purified Ab with BSA and Azide at 200ug/ml	20 ug
6404-MSM3-P1	Purified Ab with BSA and Azide at 200ug/ml	100 ug
6404-MSM3-P1ABX	Purified Ab WITHOUT BSA or Azide at 1.0mg/ml	100 ug

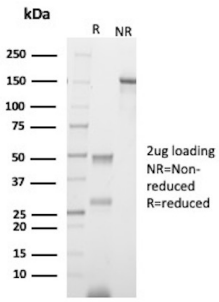

Applications	Tested Dillution	Note
Immunohistochemistry (IHC)	1-2ug/ml	30 min at RT. Staining of formalin-fixed tissues requires heating tissue sections in 10mM Tris with 1mM EDTA, pH 9.0, for 45 min at 95°C followed by cooling at RT for 20 minutes
Western Blot (WB)	2-4ug/ml	

Product Details

Clone	rPSGL1/1601
Immunogen	Recombinant full-length human CD162 protein
Host	Mouse
Clonality	Monoclonal
Isotype / Light Chain	IgG1 / Kappa
Mol. Weight of Antigen	43.2kDa
Cellular Localization	Membrane
Species Reactivity	Human
Positive Control	Jurkat cells. Tonsil or Spleen.

**Optimal dilution for a specific application should be determined.*

Product Images for Recombinant CD162 (Selectin P Ligand) Antibody

SDS-PAGE Analysis of Purified P-selectin glycoprotein ligand 1 Recombinant Mouse Monoclonal Antibody (rPSGL1/1601). Confirmation of Purity and Integrity of Antibody.

Specificity & Comments

CD162 glycoprotein functions as a high affinity counter-receptor for the cell adhesion molecules P-, E- and L- selectin expressed on myeloid cells and stimulated T lymphocytes. As such, this protein plays a critical role in leukocyte trafficking during inflammation by tethering of leukocytes to activated platelets or endothelia expressing selectins. This protein requires two post-translational modifications, tyrosine sulfation and the addition of the sialyl Lewis x tetrasaccharide (sLex) to its O-linked glycans, for its high-affinity binding activity. Aberrant expression of this gene and polymorphisms in this gene are associated with defects in the innate and adaptive immune response.

Supplied As

200ug/ml of Ab produced in a mammalian-based expression system. Prepared in 10mM PBS with 0.05% BSA & 0.05% azide. Also available WITHOUT BSA & azide at 1.0mg/ml.

Storage and Stability

Antibody with azide - store at 2 to 8 °C. Antibody without azide - store at -20 to -80 °C. Antibody is stable for 24 months. Non-hazardous. No MSDS required.

Limitations and Warranty

This antibody is available for research use only and is not approved for use in diagnosis.There are no warranties, expressed or implied, which extend beyond this description. Company is not liable for any personal injury or economic loss resulting from this product.
