

VISTA / GI24 (Negative Regulator of Immune Response) Antibody

Mouse Monoclonal Antibody [Clone VISTA/2865]

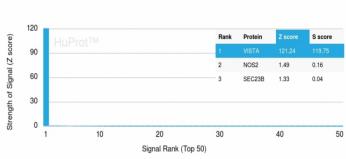

Catalog No	Format	Size
64115-MSM5-P0	Purified Ab with BSA and Azide at 200ug/ml	20 ug
64115-MSM5-P1	Purified Ab with BSA and Azide at 200ug/ml	100 ug
64115-MSM5-P1ABX	Purified Ab WITHOUT BSA and Azide at 1.0mg/ml	100 ug

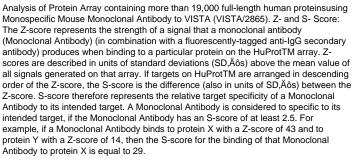

Applications	Tested Dillution	Note
Immunohistochemistry (IHC)	1-2ug/ml	30 min at RT. Staining of formalin-fixed tissues requires heating tissue sections in 10mM Tris with 1mM EDTA, pH 9.0, for 45 min at 95°C followed by cooling at RT for 20 minutes

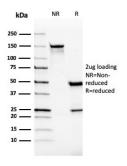

Product Details		
Clone	VISTA/2865	
Gene Name	VSIR	
Immunogen	Recombinant full-length human VISTA protein	
Host	Mouse	
Clonality	Monoclonal	
Isotype / Light Chain	IgG2a / Kappa	
Mol. Weight of Antigen	34kDa	
Cellular Localization	Cell membrane	
Species Reactivity	Human	
Positive Control	Human spleen or placenta tissue (IHC).	

^{*}Optimal dilution for a specific application should be determined.

Product Images for VISTA / GI24 (Negative Regulator of Immune Response) Antibody

SDS-PAGE Analysis of Purified Monospecific Mouse Monoclonal Antibody to VISTA (VISTA/2865). Confirmation of Integrity and Purity of Antibody.

Specificity & Comments

VISTA / GI24 is a transmembrane protein expressed in bone, on embryonic stem cells (ESCs), and on tumor cell surfaces. On ESC s, Gi24 appears to positively interact with BMP-4, potentiating BMP signaling and the transition from an undifferentiated to a differentiated state. On tumor cells, Gi24 both promotes MT1-MMP expression and activity and serves as a substrate for MT1-MMP. This increases the potential for cell motility. Mature human Gi24 contains a 162aa extracellular region with one V-type Ig-like domain and a 96aa cytoplasmic domain. Human Gi24 undergoes proteolytic cleavage by MT1-MMP, generating a soluble 30kDa extracellular fragment plus a 25-30kDa membrane-bound fragment. VISTA is a negative checkpoint regulator and is expressed on myeloid cells, Tcells and human TILs (tumor infiltrating lymphocytes) on MDSCs (myeloid-derived suppressor cells) in the TME (tumor microenvironment). It is very likely both a ligand and receptor and is a promising target for cancer immunotherapy.

Supplied As

200ug/ml of Ab Purified from Bioreactor Concentrate by Protein A/G. Prepared in 10mM PBS with 0.05% BSA & 0.05% azide. Also available WITHOUT BSA & azide at 1.0mg/ml.

Storage and Stability

Antibody with azide - store at 2 to 8°C. Antibody without azide - store at -20 to -80°C. Antibody is stable for 24 months. Non-hazardous. No MSDS required.

Research Areas

Nuclear Marker

Limitations and Warranty

This antibody is available for research use only and is not approved for use in diagnosis. There are no warranties, expressed or implied, which extend beyond this description. Company is not liable for any personal injury or economic loss resulting from this product.
