

# Recombinant STAT6 (Solitary Fibrous Tumor Marker) Antibody

Rabbit Monoclonal Antibody [Clone STAT6/7163R]

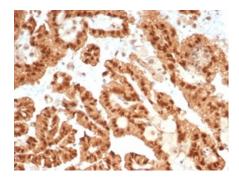

| Catalog No      | Format                            | Size     |
|-----------------|-----------------------------------|----------|
| 6778-RBM3-P0    | Purified Ab with BSA and Azide    | 200ug/ml |
| 6778-RBM3-P1    | Purified Ab with BSA and Azide    | 200ug/ml |
| 6778-RBM3-P1ABX | Purified Ab WITHOUT BSA and Azide | 1.0mg/ml |

| Applications               | Tested Dillution |
|----------------------------|------------------|
| Immunohistochemistry (IHC) | 1-2ug/ml         |

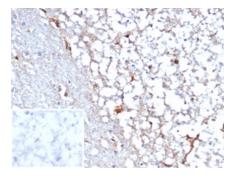

| Product Details        |   |  |
|------------------------|---|--|
| Clone                  | STAT6/7163R                                 |  |
| Gene Name              | STAT6                                       |  |
| Immunogen              | Recombinant full-length human STAT6 protein |  |
| Host                   | Rabbit                                      |  |
| Clonality              | Monoclonal                                  |  |
| Isotype / Light Chain  | IgG / Kappa                                 |  |
| Mol. Weight of Antigen | 119kDa                                      |  |
| Cellular Localization  | Cytoplasm, Nucleus                          |  |
| Species Reactivity     | Human                                       |  |
| Positive Control       | HeLa or HepG2 cells. Human kidney.          |  |
|                        |   |  |

<sup>\*</sup>Optimal dilution for a specific application should be determined.

## Product Images for Recombinant STAT6 (Solitary Fibrous Tumor Marker) Antibody

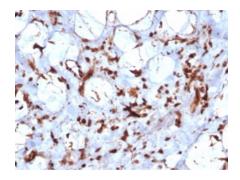

Formalin-fixed, paraffin-embedded human renal cell carcinoma stained with STAT6 Recombinant Rabbit Monoclonal Antibody (STAT6/7163R).

Formalin-fixed, paraffin-embedded human cerebellum stained with STAT6 Recombinant Rabbit Monoclonal Antibody (STAT6/7163R). Inset: PBS instead of primary antibody; secondary only negative control.

Formalin-fixed, paraffin-embedded human liposarcoma stained with STAT6 Recombinant Rabbit Monoclonal Antibody (STAT6/7163R). HIER: Tris/EDTA, pH9.0, 45min. 2°C: HRP-polymer, 30min. DAB, 5min.

## **Specificity & Comments**

STAT6 is a transcription factor in the Jak/STAT signal transduction pathway responsible for mediating IL-4 immune signaling. STAT6 was recently suggested to be a reliable marker to distinguish solitary fibrous tumors from other soft tissue neoplasms. Gene fusions are common in solitary fibrous tumors. Recent next generation sequencing studies demonstrated the presence of a NAB2-STAT6 fusion, formed by an intrachromosomal inversion fusing two neighboring genes on chromosome 12q13, in 55-100% of solitary fibrous tumors, regardless of tumor morphology or anatomical site. By immunohistochemistry, nuclear STAT6 expression can discriminate solitary fibrous tumors from its morphological mimics in the meninges, including meningioma, glioblastoma, gliosarcoma, haemangioblastoma, schwannoma and haemangioma. A recent study by Cheah, et al. using the rabbit monoclonal STAT6 antibody (Clone YE361) observed expression in all solitary fibrous tumors (54/54) tested, regardless of histology, anatomical site or CD34 status. Morphological mimics of solitary fibrous tumors were negative, demonstrating 100% specificity.

### **Research Areas**

Cardiovascular, Immunology, Cytokine Signaling, Neuroinflammation, Signal Transduction

## **Known Applications & Suggested Dilutions**

Immunohistochemistry (Formalin-fixed) (1-2ug/ml for 30 minutes at RT),(Staining of formalin-fixed tissues requires heating tissue sections in 10mM Tris with 1mM EDTA, pH 9.0, for 45 min at 95 &degC followed by cooling at RT for 20 minutes),Optimal dilution for a specific application should be determined.

#### **Limitations and Warranty**

This antibody is available for research use only and is not approved for use in diagnosis.

There are no warranties, expressed or implied, which extend beyond this description. Company is not liable for any personal injury or economic loss resulting from this product.

#### **Supplied As**

200ug/ml of Ab purified from Bioreactor Concentrate by Protein A/G. Prepared in 10mM PBS with 0.05% BSA & 0.05% azide. Also available WITHOUT BSA & azide at 1.0mg/ml.

#### Storage and Stability

Antibody with azide - store at 2 to 8 °C. Antibody without azide - store at -20 to -80 °C. Antibody is stable for 24 months. Non-hazardous. No MSDS required.
