

## Recombinant Thrombomodulin / CD141 (Endothelial Cell Marker) Antibody

Mouse Monoclonal Antibody [Clone rTHBD/1591]

Catalog No	Format	Size
7056-MSM3-P0	Purified Ab with BSA and Azide at 200ug/ml	20 ug
7056-MSM3-P1	Purified Ab with BSA and Azide at 200ug/ml	100 ug
7056-MSM3-P1ABX	Purified Ab WITHOUT BSA and Azide at 1.0mg/ml	100 ug

Applications	Tested Dillution	Note
Immunohistochemistry (IHC)	1-2ug/ml	30 min at RT. Staining of formalin-fixed tissues requires heating tissue sections in 10mM Tris with 1mM EDTA, pH 9.0, for 45 min at 95°C followed by cooling at RT for 20 minutes

### Product Details

<b>Clone</b>	rTHBD/1591
<b>Gene Name</b>	THBD
<b>Immunogen</b>	Recombinant fragment (around aa 69-194) of human Thrombomodulin (CD141) protein (exact sequence is proprietary)
<b>Host</b>	Mouse
<b>Clonality</b>	Monoclonal
<b>Isotype / Light Chain</b>	IgG1 / Kappa
<b>Mol. Weight of Antigen</b>	100kDa
<b>Cellular Localization</b>	Membrane
<b>Species Reactivity</b>	Human
<b>Positive Control</b>	Angiosarcoma, Bladder or Cervical Carcinoma., THP1 cells. Placenta

\*Optimal dilution for a specific application should be determined.

### Product Images for Recombinant Thrombomodulin / CD141 (Endothelial Cell Marker) Antibody

Formalin-fixed, paraffin-embedded human Placenta stained with Thrombomodulin / CD141 Monoclonal Antibody (rTHBD/1591).

SDS-PAGE Analysis of Purified Thrombomodulin Mouse Recombinant Monoclonal Antibody (rTHBD/1591). Confirmation of Purity and Integrity of Antibody.

Formalin-fixed, paraffin-embedded human Cervical Carcinoma stained with Thrombomodulin / CD141 Monoclonal Antibody (rTHBD/1591).

Analysis of Protein Array containing >19,000 full-length human proteins using Thrombomodulin Recombinant Mouse Monoclonal Antibody (rTHBD/1591) Z- and S-Score: The Z-score represents the strength of a signal that a monoclonal antibody (MAb) (in combination with a fluorescently-tagged anti-IgG secondary antibody) produces when binding to a particular protein on the HuProt™ array. Z-scores are described in units of standard deviations (SD's) above the mean value of all signals generated on that array. If targets on HuProt™ are arranged in descending order of the Z-score, the S-score is the difference (also in units of SD's) between the Z-score. S-score therefore represents the relative target specificity of a MAb to its intended target. A MAb is considered to be specific to its intended target, if the MAb has an S-score of at least 2.5. For example, if a MAb binds to protein X with a Z-score of 43 and to protein Y with a Z-score of 14, then the S-score for the binding of that MAb to protein X is equal to 29.

### Specificity & Comments

It recognizes a protein of 75kDa, identified as Thrombomodulin. Thrombomodulin is a transmembrane glycoprotein with natural anticoagulant properties. It is normally expressed by a restricted number of cells, such as endothelial and mesothelial cells. In addition, synovial lining and syncytio-trophoblasts of placenta also express thrombomodulin. This protein is present in almost all of benign vascular tumors and majority of malignant vascular tumors (Kaposi's sarcoma, angiosarcoma, and epithelioid hemangioendothelioma). Hence, anti-thrombomodulin serves as a sensitive marker for lymphatic endothelial cells and their tumors. Recently, thrombomodulin antibody has been used for mesothelial cells and malignant mesotheliomas.

### Limitations and Warranty

This antibody is available for research use only and is not approved for use in diagnosis. There are no warranties, expressed or implied, which extend beyond this description. Company is not liable for any personal injury or economic loss resulting from this product.

### Supplied As

200ug/ml of Ab produced in CHO cell mammalian-based expression system. Prepared in 10mM PBS with 0.05% BSA & 0.05% azide. Also available WITHOUT BSA & azide at 1.0mg/ml.

### Storage and Stability

Antibody with azide - store at 2 to 8°C. Antibody without azide - store at -20 to -80°C. Antibody is stable for 24 months. Non-hazardous. No MSDS required.

### Research Areas

Cardiovascular, Endothelial Cell Marker
