Specificity & Comments

Regulator of cell proliferation and apoptosis (PubMed:21801820). It likely functions as a substrate-adaptor that recruits key substrates, e.g. MSI2, to CUL3-based ubiquitin ligase complexes for degradation (PubMed:15107402, PubMed:27941885). Required for MSI2 ubiquitination and degradation (PubMed:27941885).
